

Home Learning, Years 7 to 10

All departments have been working hard over the last several weeks to ensure that our students are fully provided for during this period of home learning.

Below is the suggested timetable for our students In KS3 and Year 10 along with additional materials to assist them in their learning as chosen by their teachers. KS5 students will be contacted directly by their teachers and Year Team.

As before, all materials and lesson breakdowns are available on the VTE in clearly marked folders. These are being regularly updated to give our students a day to day lesson plan.

Top Tips for our Students' Home Learning:

1. Keep your daily routine. Wake up at the normal weekday time and keep to your school hours as much as possible.
2. Take your full break times to ensure that you are ready to go back and continue with you work.
3. Regularly check the VTE for updated work and more materials.
4. Keep to any deadlines that your teachers have set you.
5. Always ask for help if you need it - although the school is closed teachers are still available to check work and answer any questions.

Please contact your Director of Key Stage if you have any further questions:
